

ARUN KUMAR RAVULA

Hyderabad, India | arunkumarravula18@gmail.com | 8008384620 | LinkedIn

Student

Proactive M.Tech (Integrated Software Engineering) student with hands-on experience in real-time data solutions, AI/ML models, scalable data pipelines, cloud platforms, automation workflows, and analytics. Eager to contribute to data engineering and AI initiatives that drive innovation and business value.

Education

Master of Technology - 8.20 CGPA Vellore Institute of Technology-M.Tech (Integrated Software Engineering)	June 2021 – May 2026
Senior Secondary (Board of Intermediate Education) – 90 Percentage Narayana junior college-M.P.C,Hyderabad	June 2019 – April 2021
Higher Secondary(S.S.C)- 9.20 GPA Vignan High School,Hanamkonda	June 2011 – May 2019

Projects

Floor Cleaning Robot (Arduino C) - Built an obstacle-avoiding floor-cleaning robot combining software logic and hardware control. - Integrated sensor data for real-time task automation, optimizing navigation routines.	June 2022 – Dec 2022
Smart Car Parking System (Raspberry Pi) - Designed a parking detection system using Raspberry Pi and OpenCV to streamline vehicle parking. - Focused on real-time data processing and seamless integration for user-friendly experiences.	Jan 2023 – June 2023

Experience

Internship-Artificial Intelligence (SkillVertex) - Developed ML models for NLP and Computer Vision tasks addressing real-world use cases. - Worked on data preprocessing pipelines, iterative model tuning, and deployment workflows. - Collaborated with cross-functional teams to align data strategies with client objectives. - Gained exposure to real-time testing and agile deployment of ML solutions.	July 2024 – Aug 2024
---	----------------------

Certifications

SQL Python (Mind Luster)
Introduction to Data Science (Infosys Springboard)
UX and UI - Designing with Color Theory (Infosys)
Artificial Intelligence (Infosys Springboard)

Tech Stack

Technical Skills: Python, Java ,HTML/CSS , UI/UX Design , SQL Database Management
Cloud and DevOps: AWS (Basic),Docker (Familiar),Kubernetes (Beginner),ECS Fargate (Exploring),Git
AI/ML Analytics: NLP,Computer Vision,ML Model Development,Feature Engineering,Real-time Data Processing

Soft Skills

Collaboration | Leadership | Problem Solving | Quick Adaptability | Agile Learning | Critical Thinking
